

## New Arrivals

Timex Global Trainer This is the first GPS training watch from Timex that integrates everything into one unit. No more having to wear an armband receiver in addition to the watch. Plus, everything you love about Timex Ironman watches is here -- and more!

- Five user-configurable displays with up to 4 data windows
- Watch setup can be done on computer
- 20-workout memory - up to 1000 laps
- Performance Pacer to meet time goals
- Workout data can be downloaded to Training Peaks for storage and analysis
- Multisport Mode automatically changes metrics when you switch activities
- Transfer data, recharge battery and customize watch setting with custom USB cable
- Works with Timex Heart Rate and Bike Speed/cadence Sensors, and Third-Party Power Meters using ANT+ E Technology
